#### Revenue

DEME realized a turnover of €803.1 million, or less than in the first half of 2015, which was marked by an exceptionally high level of activity, particularly in Egypt (widening of the Suez Canal).

The delayed start of certain major projects weighed on the fleet occupancy level.

In Singapore, the Jurong Island Westward Extension (JIWE) and Tuas Terminal Phase 1 projects are progressing according to schedule. DEME was also actively engaged in Panama (widening of the access to the Canal on the Pacific side), Africa, India and Europe.

**embargoed until Tuesday 30 August 2016 – 7:00 CET - 3  
regulated information**

In the North Sea, GeoSea finished the transport and installation of the monopile foundations for 54 wind turbines of the German Nordsee One wind farm ahead of schedule.

In the United Kingdom, the Galloper and Race Bank projects were started up. Those two projects will represent a substantial volume of activity in the second half of 2016.

EDITDA and operating income

DEME's EBITDA amounted to €195.2 million in the first six months of 2016, or 24.3% of the revenue. Despite the temporary decrease in activity, DEME was able to maintain a high level of profitability partly thanks to the successful completion of several projects.

Order book

The order book increased by 13.8% to a record level of €3,625 million during the first six months of 2016.

GeoSea won a contract worth €650 million for the construction of the Merkur wind farm with its 66 wind turbines of 6 MW; the financial close of this contract has been confirmed. Completion is due in March 2019. GeoSea will also be responsible for maintaining the foundations of the wind turbines for a 10-year period. Through its subsidiary DEME Concessions Wind, DEME holds a minority stake (12.5%) in the capital of the company operating the wind farm.

***embargoed until Tuesday 30 August 2016 – 7:00 CET - 4  
regulated information***

GeoSea also concluded an EPCI contract for the design, construction and installation of 71 monopiles for the Hohe See offshore wind farm situated approximately 90 km north of Borkum Island (Germany) in the North Sea. This contract is not yet included in the order book as at June 30, 2016.

DEME's subsidiary Tideway also won a major Design & Build contract from DONG Energy for the dredging and laying of high-voltage power cables using the new multipurpose vessel 'Living Stone' as part of the HornSea One project (1200 MW), the world's largest offshore wind farm, in the United Kingdom. This contract is not yet included in the order book as at June 30, 2016.

On May 30, the consortium Femern Link Contractors, which includes namely CFE and DEME as partners, signed conditional contracts with the Danish government for the design and construction of the world's longest road tunnel (18 km), the Fehmarnbelt link between Denmark and Germany. This project, worth an estimated €700 million for DEME/CFE, will only begin once the German authorities have delivered the necessary building permits. This contract is not yet included in the order book as at June 30, 2016.

***Investments and net financial debt***

The investments during the period amounted to €112.6 million. This figure primarily consists of the capitalized maintenance costs in pursuance of IAS 16 and down payments (€32 million) on the six vessels under construction : the self-propelled jack-up vessel 'Apollo', the multipurpose vessel 'Living Stone', the crane ship 'DP2 Gulliver' (in joint venture), and three trailing suction hopper dredgers ('Bonny River', 'Scheldt River' and 'Minerva'). Those vessels, worth a total of €500 million, will join DEME's fleet in 2017 and 2018.

The net financial debt amounted to €334.2 million (economic approach), an increase of €67.5 million.

(\*) Pro forma figures according to the new definition of the segment applicable at 1<sup>st</sup> of January, 2016.

(\*\*) Including results of associated companies and joint ventures.

### Revenue

Revenue amounted to €400.5 million, or 20.4% up on the first six months of 2015.

Most entities of the Contracting division reported an increase in revenue, particularly in the international operations, with CFE Polska and CLE in Luxembourg recording a high level of activity.

Construction activity in Belgium, which represents just over half the division's revenue, is growing primarily in Flanders, buoyed by the 'Schools of Tomorrow' programme and several major projects such as AZ Sint-Maarten hospital in Mechelen and the Exxon industrial site in Antwerp. In Brussels, work on the 'Docks' shopping centre has entered the final stages, while the 'Grands Prés' project in Mons was completed in June 2016.

(\*) Pro forma figures according to the new definition of the segment applicable at 1<sup>st</sup> of January, 2016.

(\*\*) Exclusively Luxembourg, Poland and Tunisia.

### Operating income

CFE Contracting reported an operating income of €7.6 million, compared to €-4.6 million at June 30, 2015.

The three segments (Construction, Multitechnics and Rail Infra) made a positive contribution to the division's operating income.

The contribution of CFE Bouw Vlaanderen and CFE Polska to the division's operating income increased considerably compared to the first six months of 2015.

The operating margin as a percentage of revenue improved significantly to nearly 2%.

(\*) Pro forma figures according to the new definition of the segment applicable at 1<sup>st</sup> of January, 2016.

(\*\*) Exclusively Luxemburg, Poland and Tunisia.

The order book of Contracting amounted to €738.8 million, which is €97.5 million down on January 1, 2016.

Market conditions in Belgium and a greater selectivity in the intake of new contracts weighed on the order intake of CFE Bâtiment Brabant Wallonie and CFE Bouw Vlaanderen. Nevertheless, both CFE Bouw Vlaanderen and CFE Polska were able to win some major new contracts in July 2016.

Cash flow

Due to a favourable evolution of the working capital requirement, the division's net cash position stood at €98.2 million, which is €23.4 million up on year-end 2015.

## **Real Estate division**

### Key figures

Unsold units post completion	16	14
Properties under construction	32	34
Properties in development	75	71
<b>Total</b>	<b>123</b>	119

### Real Estate projects

The book value of real estate projects stood at €122.8 million at June 30, 2016, which is a 3.4% increase.

In Belgium, BPI successfully continued the marketing of residential units in the projects 'Erasmus Gardens' (Anderlecht), 'Ernest' (Ixelles) and 'Oosteroever' (Ostend). In the European district of Brussels, BPI finalized the acquisition of a land plot at the beginning of July for the development of 5,400 m<sup>2</sup> residential units.

In Luxemburg, satisfactory progress was made with the construction of the real estate complex 'Kons'; completion and transfer of the project to an institutional investor is scheduled for the end of the year.

In Poland, BPI Polska acquired a new plot of land in Warsaw (residential project of 3,500 m<sup>2</sup>). The construction and marketing of phases 3 and 4 of the residential project 'Ocean Four' in Gdansk continued at a steady pace.

### Net result share part of the group

In the absence of major transactions during the six-month period under review, the net income of the division amounted to €-0.8 million (compared to €+1.4 million in the first six months of 2015). This figure does not reflect the division's expected performance over the whole year.

## **Holding, non-transferred activities and inter division eliminations**

### Key figures

In million €	1st semester 2016	1st semester 2015 (*)	Variation
<b>Revenue</b>	<b>14.4</b>	126.4	<b>-88.6%</b>
<b>Operating income (**)</b>	<b>-10.9</b>	-21.9	<b>+50.2%</b>
<b>Net operating income share of the group</b>	<b>-4.3</b>	-12.2	<b>+64.8%</b>

(\*) Pro forma figures according to the new definition of the segment applicable at 1st of January 2016

(\*\*) Including results of associated companies and joint ventures.

### Revenue

Revenue amounted to €29.5 million for the non-transferred operations of CFE SA (€131.6 million in the first half of 2015) and €-15.1 million for interdivisional eliminations.

The substantial decrease in revenue is explained by the transfer of the marine civil engineering operations to DEME at year-end 2015 and by a sharply reduced level of activity in Africa following the completion in 2015 of several large-scale projects, more specifically in Algeria and Chad.

### Operating income

The operating income (€-10.9 million) was adversely affected by the recognition of additional losses on the Brussels-South wastewater treatment plant project, of which the first of three phases was completed in July 2016.

### Net result

The division's net result amounted to €-4.3 million (€-12.2 million in the first half of 2015).

The operating loss was partly offset by the capital gain realized on the disposal of CFE's stake in Locorail NV, the company responsible for maintaining and financing the Liefkenshoek rail tunnel in Antwerp.

In the first half of 2015, the net result had been favourably influenced by the sale of the road-building activity.

### Order book

In million €	30 June 2016	31 December 2015	Variation
<b>Order book</b>	<b>101.6</b>	132.3	<b>-23.2%</b>

The main projects in progress are the Brussels-South wastewater treatment plant and the supply contract for three residential tower blocks in Lagos, Nigeria.

*Receivables from Chad*

The Chadian government received a proposal during the second quarter for a conditional refinancing of the outstanding receivables relating to the Grand Hotel in N'Djamena. This proposal is currently being examined by the Chadian authorities.

The exposure to this country remains unchanged at €60 million.

## 4. Information on business trends

Delayed phasing of several major projects will weigh on DEME's revenue in 2016, which will be down on 2015 despite the prospect of a high level of activity in the second half of the year, particularly in offshore wind. Nevertheless, the EBITDA margin as a percentage of revenue is expected to remain above the historical average.

The Contracting division is expected to report an increase in revenue and operating income in 2016.

## 5. Information related to the share

At 30 June 2016, CFE's share capital was divided into 25,314,482 shares.

Each share confers one vote. There has been no issue of convertible bonds or warrants. Financial institutions with which holders of financial instruments may exercise their financial rights are: BNP Paribas Fortis, Banque Degroof and ING Belgium.

Banque Degroof has been appointed as the 'Main Paying Agent'.

## 6. Corporate governance

The annual general meeting renewed the director's mandate of Philippe Delusinne for a period of four years, ending after the annual general meeting of May 2020. Philippe Delusinne meets the independence criteria defined in Article 526c of the Companies Code and in the 2009 Belgian Corporate Governance Code.

The annual general meeting renewed the director's mandate of Christian Labeyrie for a period of four years, ending after the annual general meeting of May 2020. Christian Labeyrie does not meet the independence criteria defined in Article 526c of the Companies Code and in the 2009 Belgian Corporate Governance Code.

The general meeting appointed Leen Geirnaerdt as director for a period of four years, ending after the general meeting of May 2020. Leen Geirnaerdt meets the independence criteria defined in Article 526c of the Companies Code and in the 2009 Belgian Corporate Governance Code.

The general meeting renewed the auditor's mandate of Deloitte, Reviseurs d'Entreprises, SC s.f.d. SCRL, represented by Michel Denayer and Rik Neckebroeck, for a period of three years, ending after the annual general meeting of 2019.

Luc Bertrand was appointed chairman of the board of directors of CFE with effect from 5 May 2016.
